TUFTS GAY COMMUNITY

TGC is comprised of men and women from all sectors of the larger Tufts community. Some are gay, some are bisexual, and personal commitments range from the undecided to the activist. All activities are completely confidential, and it isn’t necessary to be “out” to join. The membership is quite diverse, creating a place for both those who are simply looking for support and those who are interested in trying to enlighten the straight world.

The purpose of TGC is twofold. First, it provides gay and bisexual people with the space to meet and support one another in a relaxed atmosphere. Weekly meetings are only the beginning; there are parties, “outings,” forums, speakers, and other forms of healthy recreation.

The second purpose is to educate the rest of the university on gay-related issues. This includes speaking to classes and holding informative events.

The first meeting of the semester will take place on Wednesday, September 20th at 8:00 p.m. in Burden Lounge of Anderson Hall. For information, advice, referrals, or sympathy, call 666-5835.
