

## Program Requirements

Please indicate your agreement with the requirements of the Tufts University Summer Scholars Program by initialing each statement and signing at the bottom of the page.

### If selected as a Tufts Summer Scholar . . .

\_\_\_\_\_ I will pursue my Summer Scholars research project full-time and in coordination with my faculty mentor for a minimum of 10 weeks over the course of the summer. During this period, I will not participate in any additional employment or take courses (other than single *related* course approved as part of my application).

\_\_\_\_\_ I understand that I am solely responsible for the use of my living stipend once distributed in June, including but not limited to securing housing for the duration of my research and organizing all aspects of travel, as applicable.

\_\_\_\_\_ I understand that I must provide documentation to the Program Coordinator for all reimbursements against the research stipend at any time between July 1 and my date of graduation.

\_\_\_\_\_ I agree to present the results of my research project at least three times before graduation: once at an internal conference at the end of the second summer session, once during October of the following fall, and once at the Undergraduate Research and Scholarship Symposium in the spring. If I am studying abroad, I will present my research (or related work) at the URSS the following year. I understand that a written summary of my research and my experience are due at summer's end.

\_\_\_\_\_ I agree to share my work with interested parties at the university, and to participate in publicity related to the Summer Scholars program, including communication with donors and the public.

\_\_\_\_\_ I agree to adhere to the standards of academic integrity and Tufts community citizenship as outlined in University policies and Code of Conduct (see <https://students.tufts.edu/student-affairs/student-life-policies/code-conduct> for details). I understand that these standards apply to all Scholars, regardless of their residence. I will also contribute to the summer research community on the Medford campus by participating in program activities as often as possible.

\_\_\_\_\_ I will notify the Program Coordinator immediately if no longer able to agree to any of the above requirements. I understand that violation of any of the program requirements may result in the repayment of grant funds and/or ineligibility for such funds in the future.
